

**WIPE NEW®  
RAINBRELLA™**

**DESCRIPTION AND USES**

RainBrella™ by Wipe New® is an umbrella for your windshield. This long lasting treatment repels nature's worst elements, water, mud, dirt and more, from exterior glass surfaces. The crystal clear, haze-free formula will increase visibility and safety when driving in the poorest weather conditions. The innovative, wipe on technology makes for a quick and easy application.

Wipe New RainBrella is great for use on additional automotive glass surfaces such as side mirrors, side windows and rear windows.

**FEATURES**

- Repels rain, mud and dirt
- Improves visibility while driving in poor weather conditions
- Crystal clear, haze-free formula
- Easy-to-use, wipe on application
- Protects through 100 car washes

**PRODUCTS**

SKU	Description
311196	Wipe New RainBrella
316314	Wipe New RainBrella 30 Pack

**PRODUCT APPLICATION**

**APPLICATION CONDITIONS**

Use when temperatures are between 50°F and 90°F (10°C and 32°C). Use in well ventilated and covered areas away from the sun. Ensure the glass surface is clean, dry and cool to ambient temperature before applying Wipe New.

**SURFACE PREPARATION**

Rainbrella is to be used on exterior glass surfaces only. For best results, clean the glass surface with a glass cleaner to remove any contaminants from the surface. Follow the cleaner instructions for best results. RainBrella is not recommended for plastic surfaces.

**PRODUCT APPLICATION (cont.)**

**APPLICATION**

Wearing the included nitrile gloves, tear open the RainBrella Wipe-It packet. Note: The Wipe-It packet will be heavily saturated in order to cover the windshield with two coats.

In a circular motion, buff the Wipe-It onto the windshield until the entire windshield has been covered. Once the windshield is completely covered, let the treatment sit for 5 minutes. After the treatment has sat for 5 minutes, the windshield will appear slightly hazed.

Then, in a circular motion, buff off the treatment using the included dry microfiber buffing cloth. Wait 10 minutes before applying the recommended second coat. Apply a second coat of RainBrella with the existing, pre-saturated cloth using the same technique.

During the application, it is recommended to re-fold the Wipe-It to maintain cloth saturation.

**IMPORTANT!** If a slight haze or shine still remains after removing the second coat, use a damp, clean cloth or paper towel to aid in the removal of any remnants.

To fully remove Rainbrella, use a soft soap scrub with cold water and wipe the glass until the coating is removed.

**COVERAGE**

One Wipe-It contains enough RainBrella to treat the front windshield with two coats. It is recommended to apply two coats.

**CLEAN-UP**

When finished, properly discard Wipe-It and empty packaging.

## TECHNICAL DATA

# WIPE NEW® RAINBRELLA™

### PHYSICAL PROPERTIES

		RAINBRELLA
Resin Type		Polydimethylsiloxane
Solvents		Isopropyl Alcohol, Methyl Ethyl Ketone
Volatile Organic Compounds		<570 g/l
Practical Coverage at Recommended DFT		Two coats will cover one front windshield
Dry Times at 70-80°F (21-27°C) and 50% Relative Humidity	Touch	NA
	1 <sup>st</sup> Coat	Buff off 1 <sup>st</sup> coat after 5 minutes; wait 10 minutes and apply 2 <sup>nd</sup> coat
	2 <sup>nd</sup> Coat	Buff off 2 <sup>nd</sup> coat after 5 minutes
	Full Cure	10 minutes
Shelf Life		2 years
Flash Point		23°F (-5°C)
Shelf Life		2 years
Safety Information		For additional information, see SDS
