

WEPOS Cement Residue Remover

Description:

Highly effective concentrate. Quickly and easily removes cement residue, mortar residue, lime de-posits, efflorescence and inorganic contamination. For all acid-resistant surfaces.

Effect:

Fast and smoothly removal of cement films, mortar residues, lime deposits, efflorescence an inorganic contamination.

Application:

For all acid-sensitive surfaces such as ceramic wall and floor tiles, clinker slabs, coarse ceramics, fine stoneware, brick, clay and cotto coverings, slate, quartzite, exposed aggregate concrete and lime-free natural stone such as granite.

Direction of use:

Apply according to the amount of cement film straight from the container or up to 1:10 diluted to the pre-wetted surface and distribute with a scrubbing brush or sponge. Allow to work in for a short period, but avoid drying on. Scrub off the loosened residues with a scrubbing brush and take up with a sponge, suction device or wiping cloth. Rinse off with lots of water.

Important:

Always test the surface before use for tolerability. Pre-wet the surface before treatment, especially the grouting. Adjacent surfaces should be protected and wash off any splashes immediately. Avoid touching with metals, enamels or chrome-plated objects.

Limestone-containing natural stones such as marble, shell limestone, Jura, Solnhofener, travertine are sensitive to acids. Use can cause irreversible damage.

Caution in the case of diverse types of granite (e.g. Kashmir White, various Padang types or crystal black). Necessary to test prior to use!

Packing unit:

1000 ml-bottle (4 per box)

Technical Information:

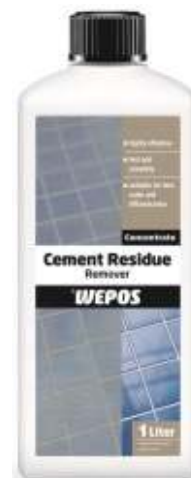

- Density: 1,05 g/ml
- pH: <1,0
- colour: light red, reddish liquid
- smell: characteristic

Hazard statements:

Causes severe skin burns and eye damage. May cause respiratory irritation.

Safety instructions:

Irritating to eyes, respiratory system and skin. Keep out of the reach of children. Do not breathe spray. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable gloves. If swallowed, seek medical advice immediately and show this container or label.
